

# FYP Logbook Entry Sheet

**Meeting No: 04**

**Date: 2024-12-01**

**Start Time: 10:30 AM**

**End Time: 12:00 PM**

## Items Discussed:

- The external supervisor discussed the UML diagrams, including:
  1. Data Flow Diagrams (DFDs)
  2. Use Case Diagrams
- Discussed the importance and structure of UML diagrams, including DFDs and Use Case Diagrams, and how they will be used in the project.
- Discussed the initial design of the user interface (UI/UX) using Figma or Balsamiq for wireframing. Reviewed the early-stage design concepts for the user interface and user experience, focusing on creating wireframes that would be later refined.
- Set a milestone to complete at least 30% of the overall project by December 30, 2024.

## Achievements:

I successfully submitted the project proposal before the deadline, ensuring that all necessary information and documentation were in place. The external supervisor verified and approved several key project documents, including the Work Breakdown Structure (WBS), Gantt Chart, and the Initial Entity-Relationship Diagram (ERD). Additionally, I completed the research phase for the tools, frameworks, and libraries required for the project, ensuring that all selections align with the technical requirements and objectives of the project.

## Problems:

Internal supervisor found issues in the Milestone Chart (Gantt Chart), requesting more detailed tasks instead of broad phases.

## Tasks for Next Meeting:

1. Complete the UML charts, including:
  - Data Flow Diagrams (DFDs)
  - Use Case Diagrams
2. Finalize the UI/UX designs or wireframes using Figma or Balsamiq.
3. Begin the development phase of the project.
