

FYP Logbook Entry Sheet

Meeting No: 1

Date: 2024-09-26

Start Time: 10:00 AM

End Time: 12:00 PM

Items Discussed:

1. Presented the proposed project idea, including its features and functionality.
2. Discussed the uniqueness of the project and received feedback from the supervisor.
3. Touched upon potential programming languages and tools for implementation.
4. The supervisor suggested focusing on the latest and emerging technologies relevant to the project.

Achievements:

1. Successfully outlined the core idea of the project.
2. Received initial feedback and suggestions from supervisors.
3. Established a rough framework for the project scope.

Problems:

The issues identified during the meeting include uncertainty regarding the final technology stack to be used for the project and the necessity for additional research to determine the feasibility of the proposed features. It was noted that further clarity is required to make informed decisions about the tools and technologies, and the practicality of implementing the planned functionalities needs to be thoroughly evaluated.

Tasks for Next Meeting:

1. Conduct thorough research on the project topic to better understand its scope and challenges.
2. Explore and compare the latest programming languages and frameworks that align with the project requirements.
